

# Aftermarket Spare Parts for Crushing and Drilling Equipment

## Aftermarket Solutions for Crushing Equipment

We specialize in providing high-quality **aftermarket crusher wear parts** engineered to deliver superior performance, durability, and reliability across a wide range of crushing applications, including Metso, Sandvik, and Terex. Our parts are designed and manufactured to meet or exceed OEM standards, ensuring optimal compatibility, reduced downtime, and extended service life for your crushing machinery.

We are proud to be a **trusted supplier of premium alternative wear parts** for most major brands of crushing equipment, such as Metso, Sandvik, and Terex. Our replacement components are produced from the finest materials and undergo rigorous quality inspections to guarantee consistent performance in the most demanding operating environments.

Bowl &amp; Mantle

Torch Ring

Feed Cone

Main Frame Liner

Frame Seat Liner

Controller

Seal

Accumulator

Socket liner

Socket

Lower head bushing

Bushing

Wedge

Jaw Plates

Damper

## Cone Crusher Replacement Parts

We supply premium compatible cone crusher parts including:

- Mainframe Assembly
- Head Assembly
- Counter Shaft Box
- Locknut
- Liner Assembly
- Other Miscellaneous Components

Each part is built for maximum wear resistance, ensuring smooth crushing operation and enhanced productivity.

## Jaw Crusher Replacement Parts

Our jaw crusher range includes high-quality compatible replacement parts such as:

- Jaw Plate
- Fixed Jaw Plate
- Cheek Plate
- Toggle Plate
- Other Miscellaneous Components

All jaw wear parts are cast and machined to exact dimensions for easy fitment and long-lasting reliability.

## Stock & Brand Compatibility

We maintain a comprehensive inventory of compatible replacement parts to suit a wide range of crusher and drilling equipment models and brands, ensuring fast delivery and minimal downtime for your operations.

Our strategically located main warehouse facilities in Dubai Investment Park (DIP), Fujairah, and Ras Al Khaimah allow us to efficiently serve customers across the UAE and the wider Middle East region. Each facility is fully equipped with storage, logistics, and dispatch systems designed to ensure prompt availability of high-demand aftermarket parts.

## Rock drill tools solution (Top Hammer and Down the hole)

We offer a complete range of high-performance rock drilling tools designed for reliability, strength, and efficiency in the toughest mining and quarrying conditions. Our product line includes Monark brand and premium Chinese-manufactured drill tools, delivering exceptional value without compromising on quality or performance.

ASE ensures that every tool is manufactured to meet international standards and field-tested to perform consistently under demanding conditions. We provide cost-effective, durable, and easily replaceable solutions to keep your drilling operations running at peak productivity.

## Rock drill tools solution (Top Hammer and Down the hole)

Monark Rock Tools, a globally recognized name in drilling technology, represents innovation and long-term dependability. Manufactured with advanced metallurgical precision and high-grade alloys, Monark products ensure maximum penetration rates, extended service life, and reduced operating costs. Our Monark range includes:

- Top Hammer Drilling Tools for surface and underground drilling applications
- Shank Adapters engineered for strength and vibration resistance
- Coupling Sleeves for accurate rod alignment and torque transmission
- Drill Rods and Extension Rods designed for superior fatigue strength
- Button Bits and Cross Bits optimized for penetration and durability

## Rock drill tools solution (Top Hammer and Down the hole)

Everdigm is a globally recognized manufacturer of high-performance drilling and construction equipment, known for its advanced engineering, reliability, and durability in the most demanding field conditions. Headquartered in South Korea, Everdigm has earned a reputation for producing world-class products that combine innovation, efficiency, and affordability for mining, quarrying, and infrastructure development industries.

We are proud to represent and support the Everdigm range of drilling tools and equipment, offering complete aftermarket solutions, spare parts, and technical support to ensure smooth and continuous operation for our customers. Our collaboration with Everdigm allows us to deliver both new equipment and premium parts with the assurance of genuine quality parts and performance.

## Chinese Drill Bits and Hammers

We also supply a cost-efficient range of Chinese drill tools manufactured with advanced forging and heat-treatment technology to deliver reliable performance in medium-to-heavy drilling operations. Our Chinese line provides an excellent balance between affordability and operational endurance, making it ideal for contractors and fleet operators looking for value-driven solutions.

Available products include:

- DTH (Down-The-Hole) Hammers and Bits for various rock formations
- Top Hammer Bits and Threaded Rods for versatile surface drilling
- Taper Bits, Taper Rods, and Integral Rods for light to medium-duty works
- Accessories and Couplings to suit multiple drill models and sizes

## Quality and Compatibility

All our drilling tools undergo strict quality assurance and field testing to ensure compatibility with leading international drilling systems, including Atlas Copco, Sandvik, Furukawa, and Epiroc machines. We maintain sufficient stock of critical wear parts and consumables for quick supply and replacement, helping you minimize downtime and maximize drilling efficiency.

## Why Choose ASE Drilling Solutions

- Wide range of Monark and premium Chinese drill tools under one roof
- Cost-effective, durable, and performance-tested products
- Immediate availability from maintained stock
- Reliable customer support and technical guidance
